 Portfolio: mayas-2.github.io/-Portfolio/

PROFESSIONAL SUMMARY

Information Technology graduate with practical experience in **Artificial Intelligence, Machine Learning, Software Development, Data Analysis, Networking, and IT Operations**. Trained through professional programs at **KAUST, Madinah Development Authority, and Madar Technical Company**. Skilled in **Python Development, TensorFlow, OpenCV, SQL, System Administration, and Technical Support**. Passionate about leveraging technology and AI solutions to solve real-world challenges and improve business processes.

CORE COMPETENCIES

Artificial Intelligence & Machine Learning:

Machine Learning • Deep Learning • TensorFlow • Computer Vision • OpenCV • AI Applications

Programming & Development:

Python • Java • Visual Basic • Flask • Software Development • Problem Solving

Data & Analytics:

SQL • Data Analysis • Data Processing • Microsoft Excel • Data Visualization

Information Technology:

Technical Support • IT Operations • System Administration • Troubleshooting • User Support

Networking:

TCP/IP • DNS • DHCP • VPN • Routing & Switching • Cisco ASA

Systems:

Windows Server • Linux • Cloud Fundamentals

TECHNICAL PROJECTS

Mu'een AI Application

- Developed using **Python, Flask**, and **TensorFlow**.
- Applied **Machine Learning** techniques to support intelligent decision-making.
- Participated in system development, testing, and optimization.

Technologies: Python, TensorFlow, Flask, Machine Learning

Sign Language Recognition System

- Developed using **OpenCV** and **Computer Vision** technologies.
- Implemented real-time image recognition capabilities.
- Enhanced accessibility through AI-powered solutions.

Technologies: OpenCV, Computer Vision, Python

PROFESSIONAL EXPERIENCE

Artificial Intelligence Trainee

KAUST | 2023 – 2024

- Developed **Machine Learning Models** and AI-based solutions.
- Applied **Artificial Intelligence** techniques to improve systems.
- Utilized **Python, TensorFlow**, and **OpenCV** in practical projects.

Network Security Specialist Trainee

Madar Technical Company | 2024

- Assisted in designing and supporting network infrastructures.
- Configured **Cisco ASA** firewalls and network devices.
- Supported network monitoring and troubleshooting activities.

Cybersecurity Intern

Madinah Development Authority | 2025

- Assisted in system monitoring and risk analysis activities.
- Supported information security and data protection initiatives.
- Participated in awareness and technology-related projects.

Cybersecurity Operations Intern

Madinah Regional Municipality | 2022

- Supported monitoring and operational activities.
- Assisted in system security and technical operations.
- Contributed to improving technology and security processes.

EDUCATION

Bachelor of Science in Information Technology

Cybersecurity Track

Saudi Electronic University

Graduated: 2026

GPA: 3.0 / 4.0

CERTIFICATIONS & PROFESSIONAL TRAINING

Professional Certification

- **CompTIA Security+ (Certification Exam Scheduled Soon)**

Professional Certificates

- **(ISC)² Security Principles**
- **(ISC)² Access Control Concepts**
- **(ISC)² Cloud Security Fundamentals**
- **(ISC)² Cryptography Fundamentals**

Technical Training

- **Cybersecurity & Artificial Intelligence Program – KAUST**
- **Technical Deep Dive with Incident Response Tools**
- **Cybersecurity Management Training**

Programming Certifications

- **Python Programming**
- **Java Programming**
- **Visual Basic Programming**

PROFESSIONAL DEVELOPMENT

- Active practice on **TryHackMe**.
- Continuous learning in **Artificial Intelligence**, **Machine Learning**, and **Information Technology**.
- Following emerging AI technologies and industry trends.

VOLUNTEER EXPERIENCE

JOY Volunteer Group

Human Resources Department Lead | 2025 – Present

Campaign Management Team Leader | 2022 – 2025

National Volunteer Platform

- Completed **50+ Volunteer Hours** across community and technical initiatives.

LANGUAGES

- **Arabic:** Native
- **English:** Fluent
